

ST MARY'S CATHOLIC PRIMARY SCHOOL, ISLEWORTH

Dear Parents,

29th January 2019

Years 2, 3, 4 and 6 will be participating in Chaos Created's Coding Workshops during the week beginning 4th February. Year 5 did the workshop last year, which is why they will not be participating this year but they will have different computing activities throughout the week instead.

The dates and times of the workshops are below:

Monday 4th February - Year 2 - Introduction to Coding (2C am, 2R pm)

Tuesday 5th February - Year 4 - Coding Games (4S am, 4M pm)

Wednesday 6th February - Year 3 – Introduction to Coding (3F am, 3M pm)

Thursday 7th February - Year 6 - BBC Microbit Workshop (6A am, 6E pm)

The children will be working in groups and the workshop will be led by an expert in coding and app designing. They will be using the website Microbit to create different forms of code. Chaos Created will also be showing children how technology is used in everyday life when it comes to creating apps and games.

The cost of the workshop will be £7.60 per child. This should be paid by **Friday 8th February** via www.parentpay.com. If your child is a Pupil Premium child, they are exempt from payment and the payment will not show on your Parentpay account.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'F. Marsh', written in a cursive style.

F. Marsh
