

ST. MARY'S CATHOLIC PRIMARY SCHOOL, ISLEWORTH

Dear Parents,

Year Two Science Museum Visit

The children are very much looking forward to the trip next week; Friday 5th February.

We have been asked by the Science Museum to follow certain procedures to assist with safety and security.

“To help us make your arrival at the Museum as quick and efficient as possible, we would ask you to adopt the following approaches:

- *Children and accompanying adults to travel light and bring just their lunches and stationery **in clear plastic bags**. Adults to carry minimal additional bags.*

Please support us in ensuring that your child’s lunch is completely disposable and in **a clear, named, plastic bag** which can be disposed of on completion of eating.

If you have volunteered to assist with this trip you will have been notified by the class teacher if your help is required. We greatly appreciate this offer of support; on occasions we have more offers than places available. We endeavor to ensure that everyone has a chance to help at some point in the year.

Yours Sincerely
P. Formby / S. Lawlor
